Australian Statistics

No. 57 **1972**

COMMONWEALTH BUREAU OF CENSUS & STATISTICS

AUSTRALIA

The Australian Commonwealth which includes the island continent of Australia and the island of Tasmania, is situated in the Southern Hemisphere, and comprises an area of 2,967,909 square miles, almost as large as the United States of America excluding Alaska.

Bounded on the west and east by the Indian and Pacific Oceans respectively, it lies between longitudes 113° 9′ E. and 153° 39′ E., while its northern and southern limits are the parallels of latitude 10° 41′ S. and 43° 39′ S.

On its north are the Timor and Arafura Scas and Torres Strait, on its south the Southern Ocean. The extreme points are Steep Point on the west, Cape Byron on the east, Cape York on the north, and South East Cape on the south.

The difference in latitude between its extreme north and south points is about 2,300 miles and in longitude between its extreme east and west points about 2,500 miles.

See page 1, for years of formation of the Colonies and the Commonwealth areas of the States and Territories, standard times, etc., and page 214 for major historical events.

SYMBOLS AND OTHER FORMS OF USAGE

The following symbols, where shown in columns of figures, mean:

- n.a. Not available.
 - Nil or less than half the final digit shown, or not applicable.
 - n Preliminary-figure or series subject to revision.
 - r Figure or series revised since previous issue.
- n.e.i. Not elsewhere included.
- n.e.s. Not elsewhere stated.
 - Break in continuity of series (where drawn across a column between two consecutive figures).

A blank space in a column of figures means that the figure concerned is not yet available.

Yearly periods shown as, e.g., 1970, refer to the year ended 31 December 1970; those shown as, e.g., 1970-71, refer to the year ended 30 June 1971. Other yearly periods are specifically indicated.

Unless otherwise indicated, the British system of weights and measures is used.

Values are shown in Australian dollars (\$) or cents (c) unless another currency is specifically stated.

Any discrepancies between totals and sums of components in tables are due to rounding.

⁽a) Greenwich Mean Time is one hour ahead of British Mean Time. For standard times in other countries see page 3. (b) Because of 'daylight saving' an hour should be added from late October to late February. (c) Transferred to Commonwealth in 1911.

The six States with their included Territories were federated under the name 'Commonwealth of Australia' on I January 1901.

The coastline of Australia is approximately 12,000 miles long—New South Wales, 700 miles; Victoria, 700 miles; Queensland, 3,200 miles; Outh Australia, 1,300 miles; Western Australia, 4,000 miles; Northern Territory, 1,000 miles; Australian Capital Territory, Jervis Bay area included in New South Wales; Tasmania, 900 miles. These measurements are broadly on a 'direct' basis, but even so they must be regarded as approximate only.

AREAS OF TROPICAL AND TEMPERATE REGIONS: STATES AND TERRITORIES

(Square miles)

Of the total area of Australia, nearly 39 per cent lies within the tropics. Taking the latitude of the Tropic of Capricorn as 23° 30′ S., the areas within the tropical and temperate zones are approximately as follows:

Area		N.S.W.(a)	Vic.	Qld.	S.A.	$W_{-}A$.	Tas.	N.T.	Total
Within tropical zone ,, temperate zone	:	310,372	87,884	360,642 306,358	380,070	364,000 611,920	26,383	422,980 9 7,3 00	1,147,622 1,820,287

⁽⁹³⁹ square miles).

Fifty-four per cent of Queensland lies within the tropical zone and 46 per cent in the temperate zone; 37 per cent of Western Australia is tropical and 63 per cent temperate; while 81 per cent of the Northern Territory is tropical and 19 per cent temperate. All the remaining States lie within the temperate zone.

AUSTRALIAN PARLIAMENTS

The Legislature of the Commonwealth and of each State except Queensland is bicameral, consisting of an Upper and a Lower House. In Queensland the Upper House was abolished in 1922. In the Commonwealth Parliament the Upper House is known as the Senate and the Lower as the House of Representatives; in the bicameral States the Upper House is known as the Legislative Council and the Lower House, in New South Wales, Victoria, and Western Australia, as the Legislative Assembly (which is also the name of the Queensland Parliament) and, in South Australia and Tasmania, as the House of Assembly.

Adult suffrage for British subjects with the necessary residential qualifications prevails in respect of both Commonwealth Houses and the State Lower Houses except in South Australia and Western Australia where the voting age is 18 years. In New South Wales legislation has been passed but not yet proclaimed, to lower the voting age to 18 years. Voting is compulsory. A British subject member of the Defence Forces of the Commonwealth on service outside Australia is entitled to vote at Commonwealth elections whether enrolled or not, if he has lived in Australia for six months continuously. In 1966 the franchise was extended to entitle a person who is less than twenty-one years of age who has lived in Australia for six months continuously and who is or has been, on 'special service' outside Australia as a member of the Defence Force to vote at elections as if his name appeared on the roll. Some property or special qualification is required for electors for the Legislative Council in South Australia. In New South Wales the Council is elected by members of both Houses at simultaneous sittings, and in Victoria, Western Australia and Tasmania adult suffrage operates.

⁽b) Includes Jervis Bay Area.

Membership of both Commonwealth Houses is open to adult British subjects with three years' residence in Australia and qualified as electors. In the State Lower Houses the requirements for membership are similar, but with varying periods of residence. For membership of the State Upper Houses in some States a candidate must have, as well as more general qualifications, a minimum age of 25 or 30 years.

Note. All referendum proposals except Military Service in 1916 and 1917 involved alteration of the Constitution. Prior to Federation there were two referendums, the first in 1898, when a proposed Constitution, embodied in the Federal Constitution Bill, was submitted to the popular vote but failed to receive the statutory votes. Following modification of the bill the necessary consent was obtained at a referendum held in 1899.

Note. Gross national product—the market value of final goods and services produced in Australia—is shown in terms of incomes and other costs appropriated out of it. Operating surplus is shown gross of the depreciation costs which businesses would deduct in arriving at income available for distribution. Indirect taxes are costs which enter into the value of the product measured at market prices and represent income appropriated by government.

WORLD SHIPPING TONNAGE

At 1 July 1970 the total number of steamships and motorships 100 gross tons and upwards throughout the world was 52,444 with a gross tonnage of 227,489,864. Of those totals, steamships numbered 7,959 for 82,064,527 gross tons, and motorships 44,485 for 145,425,337. This includes 6,103 oil tankers of 100 gross tons and upwards with a gross tonnage of 88,139,853. Australian steamships and motorships, 344 for 1,074,112 gross tons constituted 0.66 per cent and 0.47 per cent respectively of the total number and gross tonnage. This information has been derived from Lloyd's Register of Shipping.

PRIVATE RAILWAYS

Private railways are operated over a range of gauges and are to be found in each State of the Commonwealth. In recent years there has been considerable growth in the total route-mileage of private railways, from an estimated 300 route-miles in 1965 to approximately 965 by 1971. The construction of 582 miles of heavy duty railway for north-west Western Australia iron ore projects accounts for much of the increase.

Two private railway projects are currently under construction. Each of these will function as an integral part of a mining operation. The larger of the two is the construction of a railway for the transportation of iron ore between Lambert and Mount Enid, Western Australia (approximately 104 miles) for Cliffs Western Australia (hining Cc. pany Pty Ltd. The other involves the construction of approximately 14 miles at Weipa, Queensland, to service the Comalco Company's bauxite mining operation. Completion of both projects is planned for the latter part of 1972.

(a) As at 30 June 1969. (b) Revised classification by Main Roads Department as at 30 June 1969. (c) See NOTE.

Note. 'Classified roads' refer to roads proclaimed or declared by Act for which the central road authority concerned assumed responsibility for part or the whole of the cost of construction and/or maintenance. Included under this heading are State highways, trunk roads and ordinary main roads, comprising about 73 per cent of the total classified mileage for Australia, and secondary developmental, tourist, etc., roads, comprising about 87 per cent. These classifications do not apply to the two Commonwealth territories.

'Total roads' are estimates of all roads and tracks normally open for general traffic, about 46 per cent of which are constructed, the remainder being formed or natural surface only. The sources for this information are, in the main, local government authorities.

(a) Expenditure for this year includes five 12-weekly payments instead of the usual four 12-weekly payments for endowments paid to the credit of bank accounts.

From January 1964 the weekly rates were: \$0.50 for the first child in a family, \$1.00 for the second child, \$1.50 for the third and subsequent children under 16 years in families, \$1.50 for each child under 16 years in families, \$1.50 for cach child under 16 years in an institution, and \$1.50 for full time student children between 16 and 21 years. From 19 September 1967, cumulative increases of 25c became payable for the fourth and subsequent children under 16 years in a family, making \$1.75 for the fourth child, \$2.00 for the fifth, \$2.25 for the sixth, and so on. From 12 October 1971 \$2.00 was paid for the third child under 16 years in a family and cumulative increases of 25c for the fourth and each subsequent child, making \$2.25 for the fourth, \$2.50 for the fifth and so on. The payment for each child under 16 years in an approved institution was increased 50c to \$2.00. Child endowment is not subject to a means test.

Claims for families which have both endowed children under 16 years, and endowed student children, 16 to 21 years, are counted twice.

(a) Includes pensions to dependants. Miscellingous war and service pensions are not included in the pensions granted column prior to 1967-68 but are included in the remaining columns.

War pensions and allowances are paid to exservicemen and their dependants as compensation for incapacity or death accepted as due to war service. They fall into three main categories, depending on the severity of the war caused disability, as follows: special rate, intermediate rate and general rate. War pensions are not subject to a means test or to income tax.

Service pensions are payable to ex-members of the Forces:

- (i) on reaching the age of 60 years for men and 55 years for women:
- (ii) permanently unemployable; or
- (iii) suffering from pulmonary tuberculosis.

With the exception of (iii), male members must have served in a theatre of war and females must have served abroad. Service pensions have operated since I January 1936 and are subject to a means test.

COMMONWEALTH INCOME TAX

I. INDIVIDUALS

1971-72 Income year

Income tax is levied if the income remaining after allowing deductions exceeds \$416. An aged person (i.e., a man aged 65 or more or a woman aged 60 or more) whose taxable income does not exceed \$1,326 (single) or \$2,314 (married) is not taxed.

The tax, including the 5 per cent addition on the general rate, on specified incomes derived in the year ended 30 June 1972 is as follows:

(\$)

⁽a) Income remaining after allowing all deductions other than deductions for dependants.

Concessional deductions

The following concessional deductions from income derived during the year ended 30 June 1972 are allowed to resident taxpayers:

1. Dependants and/or housekeeper-

⁽a) If a dependant (not a housekeeper) has a separate net income, is not wholly maintained, or is maintained for part only of the year the deduction is reduced.

2. (i) Medical, etc., expenses of a taxpayer and his dependants (including dental expenses, artificial limbs or eyes, hearing aids, etc., the remuneration of an attendant of a person who is blind, etc.); (ii) funeral expenses up to \$100 per dependant; (iii) life assurance premiums, etc., up to \$1,200; and (iy) education expenses incurred up to \$300 for each child or dependant under 21 receiving full-time education.

Other deductions

The following other deductions from income are allowed to residents and non-residents; (i) Rates and taxes on property; (ii) gifts to public, charitable, etc., institutions; and (iii) subject to certain conditions, one-third of certain amounts paid on calls to certain mining, forestry and oil prospecting companies. In some cases the full amount paid on allotment and calls is allowed to residents.

Payment of tax

- (i) Employees pay the tax as a deduction from wages. Deductions in 1971-72 will be used to pay tax on 1971-72 income. Any difference between the deductions and the tax assessed will be adjusted by cash payment. The scale of weekly deductions is available at all Post Offices.
- (ii) Non-employees in 1971-72 will pay a provisional tax on that year's income. The 1971-72 provisional tax will be adjusted in 1972-73 when the actual tax on 1971-72 income is known.
